

VICTOR FARUNA

Nigeria, West Africa | (+234)-9125165937 | <https://linkedin.com/in/victor-faruna-53b20a306>

EDUCATION

Federal University of Oye-Ekiti

Ekiti State, Nigeria

Bachelor of Engineering in Electrical and Computer Engineering

Expected to graduate, 2027

Cumulative GPA: 4.25/5.0

Relevant coursework: *Computer Architecture, Embedded Systems, Operating Systems, Algorithms, Software Engineering Principles.*

EXPERIENCE

Gimme.Finance

Milan, Italy

Lead Fullstack Software Engineer (Fulltime)

Dec 2024 – Present

- Built a scalable mobile app using React Native and Expo onboarding over 1000+ users within the first 2 weeks of test launch.
- Built a robust backend solution using Nest (Node Framework) and Supabase (Postgres) to improve scalability and performance.
- Integrated blockchain L2 technologies (B2B, B2C and P2P) transactions with stable-coins resulting in a 35% increase in user interactions.

Toronet.org

Delaware, U.S

Frontend Engineer (Intern)

Feb 2025 – Present

- Implemented rigorous code review processes and unit testing frameworks for the Toronet payment gateway API, resulting in a 40% reduction in bug reports and improved code reliability.
- Revamped over 1000+ lines legacy codes and outdated UIs using frontend technologies such as ReactJS, NextJS, tailwind, motion, e.t.c.

Jojidao.com

Ekiti, Nigeria

Fullstack Engineer and Blockchain Researcher

Jan 2023 – Present

- Built full-stack solutions for Joji DAO apps using scalable modern technologies e.g NextJS, Web3JS, ThreeJS, onboarding 5,000+ students around Nigeria into the blockchain ecosystem.
- Built, tested and deployed over 15 smart contracts across L1 and L2 chains such as ETH, Base, Polygon, Avax.
- Led the team at Joji DAO in blockchain research and blockchain architecture looking at L1 and L2 solutions.

PROJECTS

FontZero

A modern icon library for developers and designers.

- Designed and developed a modern icon library using NextJS to fetch icons from open source libraries and filter the data using AI to display the best results.
- Built a stunning UI with copy, filter and customise functionality for better user experience.

Thefloxtv

A robust and fully functional movie and tv-show streaming solution

- Designed a very visually stunning UI using Svelte and SvelteKit for better load time.
- Utilised TMDB's api to get movie data and used a third party api to get streaming and buffering data.

SKILLS

Languages: Javascript, Typscript, Python, PHP, Solidity, Rust.

Frameworks & Libraries: React, React-Native, Next JS, Svelte, Vite, TailwindCSS, SvelteKit, Nest, ExpressJS, AstroJS, HardHat

Soft Skills: Critical thinking, Problem-solving, Communication, Teamwork, Adaptability, Time management, Leadership, Accountability, Creativity, Growth mindset
